Part B: Adding people to multiple competitions

All participants (players and non-players) register one time using the same form for the season, for example the **Netball Registration 2024** form. Even if the person participates in multiple competitions, for example the **Pre season competition** and the **Senior Competition**, they only need register once. The steps below explain how to add someone to more than one competition.

Example: You have added the player **Ginny Blackmore** into the Bluebirds team for the **Pre season competition 2024** competition. Now you want to add them into another team in a different competition.
